MS2320
full size scanner/scale

MS2320 Series **StratosH™**

StratosH™ is a high performance 6-sided, bioptic scanner/scale for seated and space constrained checkout environments with a patented modular design that provides ease of setup and maintenance ensuring minimum downtime and maximum customer service.

StratosH is Metrologic's 6-sided high performance bioptic scanner/scale series well suited for POS applications supporting narrow enclosures around the vertical tower. StratosH carries a 100 mm (4") below counter depth designed to allow easy integration into most of today's seated and standing checkout environments.

StratosH is a 6-sided, 360° in counter scanner incorporating Stratos advanced scanning architecture and Stratos**SPHERE™** decoding software providing high throughput scanning with minimal need for product orientation.

StratosH comes equipped with Stratos**SCOPE™**, a visual diagnostic indicator providing immediate feedback on scanner condition and a Checkpoint compatible EAS activation antenna for simultaneous EAS security tag deactivation and bar code scanning. Stratos**SCHOOL™** operator training software allows operators to improve scanning technique allowing for greater productivity and safer scanning methods.

Additionally, StratosH features a powered RS232 auxiliary port for integration of a hand-held bar code scanner, flash ROM firmware upgrade capability, MetroSet®2 PC based configuring and sapphire or diamonex based horizontal glass.
